

CASE STUDY

Swarm Aqua® has been installed in:

McDonald's

Swarm Aqua® was the product of choice to remedy a flooding section in this McDonald's' Restaurant car park.

With its excellent interception properties and robust finish, Swarm Aqua® is capable of performing in even the most demanding circumstances.

A quick delivery meant that this channel was delivered and installed within just days from receipt of order, causing minimal disruption and zero downtime for the restaurant.

Swarm Aqua® can cater for areas from the smallest driveway to the largest industrial zones, with load ratings from A15kN to F900kN.
